Fire Prevention Bureau
1421 N. Jefferson
St. Louis, Mo. 63106
Telephone No. 289-1900

FD-177 (ML90)

The St. Louis Fire Prevention Code Ordinance #56797 requires that the Fire Marshal issue permits for all existing and new buildings involved in the various activities as outlined below. The Code also requires that fees be charged for the issuance of these permits. All fee charges must be paid before permits can be issued. Upon receipt of your completed application, an inspector from this office will inspect your premises to determine your compliance with the Fire Prevention Code. You will then be notified of the charges to be paid, and receive your permit.

Please select the type of permit as it pertains to your particular operations and list each separately on the front of this application.
