1. Will an Isa Certified Arborist be required to be on site for this project?

   No
2. Will the city take the wood chips generated from this project? If not, does the City have a designated location to dispose of the green waste?

   No.

   The city contracts with St. Louis Composting, Inc. located at 560 Terminal Row, St. Louis, MO 63147. However, the decision is up to the contractor as to where to dispose of the debris.
3. Does the City have a GPS tree inventory?

   Yes, for public trees. However, we do not maintain an inventory of private trees.
4. Will the City provide a location to park equipment throughout the project?

   No.
5. Can bidders submit pricing for Additional Services beyond what is listed on the bid sheet?

   Yes, as long as sections IV and VII are satisfied as well.

6. Page 12, Section E (Living Wage): the footnote says the Living Wage Acknowledgment and Acceptance Declaration is attached as Appendix 2, but Appendix 2 appears to be a different form. Please provide the Living Wage declaration form, or confirm whether it is required for this contract.

   The Living Wage Announcement is the very last page. It is required for any contract over $50,000.00. There will be a form in the contract that requires signature.

7. Page 13, Section K (Insurance): please confirm the general liability aggregate required ($3.26M as written), and whether an umbrella policy may be used to meet it.

   An umbrella policy is fine as long as you also provide the underlying primary policy that the umbrella policy backs up.
