

CITY OF ST. LOUIS CLASSIFICATION SPECIFICATION

CLASSIFICATION

TITLE: Director of Airports

CLASS CODE: 1658

GENERAL DESCRIPTION OF DUTIES:

Incumbents in this classification are accountable for the overall operations of the airport, which is accomplished by directing the efforts of subordinate managers in the areas of staffing, security, operations, maintenance and related airport services.

DISTINGUISHING CHARACTERISTICS:

This is an advanced-level managerial classification in the General Administrative Series – Airport Executive Group job family within the City of St. Louis. Incumbents within this classification perform complex duties with a variety of related tasks. The distinguishing characteristic of this classification within the series is the accountability for overall operations of the airport.

Incumbents work under administrative direction. They are free to plan, direct and organize all phases of work necessary for its completion within broad program guidance. Incumbents generally report to an executive level administrative official.

This is the executive level for this series. Positions in these classes have **primary and major** responsibility for setting broad policies, exercising overall authority for the execution of those policies and managing work units or operations. Incumbents are delegated on a regular and recurring basis full authority to establish comprehensive objectives and strategies for a department and its major subdivisions. This level of work considers all internal and external forces and developments on department strategies and goals, guides the integrated planning for functional activities, and continually reviews both objectives and their implementation for effectiveness.

EXAMPLES OF WORK (Illustrative Only):

(The list of duties is intended to be representative of the duties performed in positions within this classification. It does not include all the duties that may be assigned to a position and is not necessarily descriptive of any one position in this class.)

Plans and advocates the formulation or modification of agency or major work unit administrative and/or program systems and practices to promote equitable management of human, financial, and other resources within the agency.

Facilitates effective work relationships between the agency and other administrative and/or program systems.

Directs implementation of administrative and/or program control systems to obtain the necessary administrative and/or program information and financial data required in the decision-making and planning process.

Controls and coordinates the direction of administrative and/or program functions over a long range planning period to facilitate attainment of program goals; to ensure adherence to administrative directions, state and federal laws and regulations; and to maximize the interaction and delivery of services.

Confers with the agency head, other administrators and divisional managers/directors to discuss and solve agency-wide problems and/or issues that impair the effectiveness and efficiency of programs and organizational operations.

Confers with and advises subordinate agency staff to exchange information on and/or explain administrative and program objectives, policies, procedures, and standards; and to identify the characteristics and impact of work problems and formulate possible solutions.

Evaluates and determines disposition of new and/or revised rules and procedures recommended by agency staff or representatives of other organizations to assess the impact of the proposals on the administrative and/or program systems and to ensure proposals, respond to program needs and comply with state and/or federal law.

Ensures that airport remains in compliance with FAA regulations and air traffic control procedures.

Supervises subordinate managers to effectively run operations, maintenance, security and related airport services.

Reviews and submits annual budget.

Recommends implementation of fees and charges.

KNOWLEDGE, SKILLS AND ABILITIES:

Data Utilization:

Requires the ability to perform upper-level data analysis, including the ability to hypothesize, theorize and assimilate, to modify or adapt existing policies/methods to meet unusual conditions within the context of existing theories and management principles.

Human Interaction:

Requires the ability to direct a major organizational unit requiring significant internal and external interaction.

Equipment, Machinery, Tools and Materials Use:

Requires the ability to operate, maneuver and/or provide simple but continuous adjustment on equipment, machinery and tools such as a motor vehicle, personal computer and/or materials used in performing essential functions.

Verbal Aptitude:

Requires the ability to utilize a variety of reference, descriptive and advisory data and information such as financial statements, technical operating manuals, statutes, procedures, guidelines and non-routine correspondence.

Mathematical Aptitude:

Requires the ability to perform addition, subtraction, multiplication and division; calculate percentages and decimals; requires the ability to utilize principles of descriptive statistics.

Functional Reasoning:

Requires the ability to apply principles of logical or synthesis functions involving planning and directing of interrelated activities or multiple departments. Ability to deal with several concrete and abstract variables in working out approaches to major problems.

Situational Reasoning:

Requires the ability to exercise the judgment, decisiveness and creativity required in critical and/or unexpected situations involving moderate risk to the organization.

Environmental Factors:

Tasks may risk exposure to adverse environmental conditions, such as dirt, dust, odors, wetness, humidity, rain, fumes, temperature and noise extremes, machinery, vibrations, electric currents, traffic hazards, toxic/poisonous agents, violence, disease, or pathogenic substances.

Physical Requirements:

Tasks involve the ability to exert light physical effort in sedentary to light work, but which may involve some lifting, carrying, pushing and pulling of objects weighing five to ten pounds, such as office supplies.

Tasks may involve extended periods of time at a keyboard or workstation.

Sensory Requirements:

Requires the ability to recognize and identify similarities or differences between characteristics of colors, shapes and sounds, associated with job-related objects, materials and tasks. Requires the ability to distinguish objects clearly at both close and far-range in order to remain safe on airfield.
