St. Louis Area (MO-IL) Median Family Income (AMI) for year 2020 is \$82,900.

Source: HUD April 2020, Effective April 2020.

Definitions:

ADA compliant - The design and construction of the housing units and facilities complies to the full extent of the Americans with Disabilities Act and provides maximum accessibility.

Adaptable - Adaptable units are designed to be readily adjusted in a short time by unskilled labor without involving structural or finished material changes.

AMI (Area Median Income) - All units receiving Affordable Housing Commission funding must serve low to moderate income residents. These are defined as households earning ≤80% AMI. Please refer to the income chart above. AHC-assisted units must not consume more than 30% of the household's income.

Chronic Mentally Ill - A condition of a major affective disorder, based on a diagnosis from a licensed mental health professional, with at least one documented hospitalization for the condition within the last 2 years impairing areas of work, family relations, thinking, or mood.

Development Disability - Lifelong disabilities attributable to mental or physical impairments, manifested prior to age 22.

Dual Diagnosis/Co-occurring Disorders - The simultaneous presence of two mental health related conditions—e.g., a developmental and a mental disorder, learning disability and substance abuse, depression and substance abuse, etc.

Senior Housing – Housing restricted to serving residents age 55 and older. Please note, some senior housing requires residents to be 62 years old or older.

Universal Design - Housing that is universally designed (UD) includes design modifications and ease-of-use products, technologies and innovations to make the home accessible. UD incorporates a wide range of intuitive features that require low physical effort thereby allowing the housing to be used optimally by the greatest number of people (young and old, short and tall, with and without physical limitations) and to improve the quality of life.

Visitability Standard - An approach to designing homes to be affordable and minimally accessible by meeting three conditions:

- One zero-step entrance at the front, side or rear of the home;
- 32” wide clearances at doorways and hallways with at least 36 inches of clear width;
- At least an accessible half bath on the main floor.
