

2019 Point In Time & Housing Inventory Counts

ST. LOUIS CITY COC

Housing Inventory Count Overview

The Housing Inventory Count (HIC) is a point-in-time inventory of provider programs within a Continuum of Care that provide beds and units dedicated to serve persons who are homeless, categorized by five Program Types:

- Emergency Shelter
- Transitional Housing
- Rapid Re-housing
- Safe Haven
- Permanent Supportive Housing

Emergency Shelter Beds

Explanation of Changes

- +130 beds
 - Due to weather during the night of the PIT Count, several churches and community organizations opened their doors temporarily as shelters

Transitional Housing Beds

Explanation of Changes

- St. Louis City CoC: -33 beds
 - In 2018, Hope House was still in the process of closing, so some of their beds counted as TH on the HIC.

Rapid Rehousing Beds

Explanation of Changes

- St. Louis City CoC: +115 beds
 - New Projects: DOORWAYS MHTF RRH, St. Patrick Center MHTF RRH
 - St. Patrick Center Home Again gained 37 beds
 - Gateway 180 RRH projects added 13 beds

PSH Beds

Explanation of Changes

- St. Louis City CoC: +55 beds
 - HUD VASH added 89 beds between 2018 and 2019
 - Hope House had 65 fewer beds between 2018 and 2019
 - Other differences due to annual fluctuations for voucher PSH projects

OPH Beds

Explanation of Changes

- St. Louis City CoC: +21 beds
 - Due to a funding change, Humanitri's program changed the project type from RRH to OPH.

Point in Time Count

2019

Point in Time Overview

- The Point-in-Time (PIT) count is a count of sheltered and unsheltered homeless persons on a single night in January. This year, the PIT Night was January 30th.
- HUD requires that each Continuum of Care (CoC) conduct an annual count of homeless persons who are sheltered in emergency shelter, transitional housing, and Safe Havens on a single night.
- CoC's must also conduct a count of unsheltered homeless persons every other year (odd numbered years).
- Each count is planned, coordinated, and carried out locally.

HUD System Performance Measures

FEDERAL FISCAL YEAR 2018

SPM Overview

- Set of 6 measures and a data quality report generated by the HMIS that measure the CoC's progress in meeting the needs of people experiencing homelessness
- Submitted to HUD on May 31, 2019
- Looking at data from Oct. 1, 2017 - Sept. 30, 2018
- HUD compares the SPM's for a CoC from one year to another, never to other CoC's
- HUD's funding decisions are based, in part, on SPM's

What does HUD Look at?

- Measure 1: Length of Time Homeless
- Measure 2: Returns to Homelessness
- Measure 3: HMIS Annual Sheltered Counts
- Measure 4: Changes in Income
- Measure 5: Persons Experiencing Homelessness for the first time
- Measure 7: Exits to Permanent Housing Destinations
- Data Quality Report

Your Data Quality Matters!

- What your agency puts in the system impacts the outcomes and funding for the entire CoC.
- The 0640 – HUD Data Quality Report Framework is designed to clean up data for the System performance Measures
- Agencies can run the SPM Reports to see how their projects are doing
