NOTICE OF FUNDING AVAILABILITY

Permanent Supportive Housing Development Initiative

June 2013

A study released in September 2012 by the national Corporation for Supportive Housing verified that there is still a shortage of **safe, sanitary, permanent housing** for persons suffering from behavioral health disorders, including drug and alcohol addiction, in the City of St. Louis. The St. Louis Mental Health Board (MHB) hereby notifies interested parties of the availability of funds for the development of **permanent** supportive housing for adults living with serious mental illness and/or substance use disorders. MHB's basic investment criteria for the Initiative are as follows:

- Total funding for the Initiative is approximately \$750,000.
- Maximum funding per project is the lesser of \$250,000 or 80% of project capital costs
- Behavioral health services must be provided as an integral part of any proposed project and provided on an on-going basis for a 10-year period
- Eligible projects must have no more than 15 units per site and must be located within the City of St. Louis.
- MHB prefers projects that contemplate the rehabilitation of existing buildings.
- MHB funds should leverage other funding sources to the greatest extent possible.
- MHB funds may be directed only to not for profit corporations
- MHB encourages partnering with experienced developers to facilitate development and operation

MHB intends to select proposed projects through a two-step competitive process. Interested parties are invited to submit a Letter of Intent to Submit an Application (LOI). The LOI will provide basic information about the proposed project and will be used by the MHB to determine whether the interested parties will be invited to submit a full proposal for their project. LOIs in response to this Notice must be submitted to the MHB anytime before October 31, 2013. Copies of the LOI form are available on the MHB website.

It is the goal of MHB to utilize minority- and women-owned businesses in the development of this housing. Recipients should strive for 25% certified minority business enterprise participation and 5% certified women's business enterprise participation. Recipients will be required to keep records of participation.

MHB anticipates that decisions on **invitations to submit full applications will be made within 60 days of submission** and that **full applications will be due within 30 days of the invitation** by MHB to successful LOI requestors.
