

## ATTACHMENT III

This list of Disadvantaged Business Enterprise (DBE) Certified Information Technology consultants is compiled from the DBE Directory of Consultants certified under the DBE Office procedures. Other qualified consultants may be available who are not listed below. For the entire Directory please consult <http://www.mwdbbe.org>.

The DBE Office is responsible for administering the Airport's Disadvantaged Business Enterprise Program (DBE Program). The DBE Program is a federal program through the Department of Transportation designed to encourage and facilitate the growth and development of Disadvantaged Business Enterprises. The DBE Office ensures that DBE's participate in airport/city opportunities to the fullest extent possible. The DBE program includes services for certification of DBE businesses, monitoring contracts for compliance with DBE participation goals, and outreach activities to attract new DBE's.

The inclusion of a consultant on this list is not an endorsement, sanction, or certification of that consultant by the City of St. Louis Planning and Urban Design Agency Cultural Resources Office. Before hiring a consultant or consulting firm, review their credentials and ask questions. Make certain their expertise is what you need for your particular project.
