

REPLACEMENT WINDOWS FOR LOCAL HISTORIC DISTRICTS

1. All-wood sash replacement kit (i.e. Marvin *Tilt-Pac*, etc.) that replicates the original window in configuration, size, dimension of members, placement within the opening; and trim.
2. All-wood replacement window that is installed by removing the existing window frame and which replicates the originals in configuration, size, dimension of members, placement and trim. **(See attached partial listing of conforming wood replacement windows).**

NOTE: Lafayette Square Historic District Standards allows only wood replacement windows on street-facing facades.

3. The current non-wood historic replacement windows that have been approved by the Cultural Resources Office are:
 - 1) Color-finished aluminum:
 - **Crown Industries M-1400**
<http://crownwindow.com/>
 - **Quaker H300 Historic Singlehung**
<http://quakerwindows.com/>
 - **EFCO Historic Doublehung**
<http://www.efcocorp.com/default.aspx>
 - 2) Composite:
 - **Andersen “Renewal” doublehung**
<http://www.renewalbyandersen.com/>

NOTE: Any wood or non-wood window that is not on the above list may be presented to the Cultural Resources Office for approval; however, please be aware that any replacement window approved for use must replicate historic doublehung windows in configuration, size, dimension of individual members, placement and trim.
