

Worried about Car Theft?

JOIN THE CLUB!!

Mayor Francis G. Slay, the St Louis City Metropolitan Police Department, the Neighborhood Stabilization Team and the Five Star Senior Center are asking you to:

JOIN THE CLUB

The club is a highly successful anti vehicle theft device that has been shown to deter car theft

You can get a \$40 Anti-theft
Vehicle Club for only \$11

One size fits all vehicles
(Cash only)

For more information, or to buy a club call Neighborhood Stabilization at 657-1392, or come by Room 4000 at 1520 Market St. during normal business hours.

THE AUTO CLUB

An auto thief can easily see The Club, even before they break out a window or begin prying on your door locks. The device is difficult to remove and makes it more difficult for a thief to steal your car.

Auto Theft Prevention Checklist:

- All car doors locked
- All windows rolled up
- All personal belongings have been removed
- Vehicle is parked in a well-lighted area
- Vehicle is parked in a high-visibility location
- Anti-theft device is on (club, alarm, kill-switch, etc.)

Parking

When parking on the street, find a well-lighted area with lots of pedestrian foot traffic (thieves look for isolated, dark areas to break into cars). Do not invite a break-in by leaving valuables such as cameras, CDs, money, computers, or packages in plain sight; either take them with you or discreetly lock them in the trunk. If you do not have a trunk, place them in an out-of-sight location such as under a seat or grocery cover (it's best to do this before you get to your parking spot).

Auto Theft Prevention FAQs Regarding The Club

Question: What makes The Club better than the other products?

Answer: The Club's durable construction and tamper-resistant locks deter thieves the moment they see it. Most auto thieves are looking for a quick and easy target to steal. The Club deters them and greatly reduces the opportunity to steal the vehicle.

Question: What makes The Club effective?

Answer: There are many factors that make The Club a vehicle owner's most effective first line of defense against theft. Primarily, it is the high visibility The Club provides. Thieves notice it immediately and the difficulty this presents to them is 1) time, 2) additional hardware and tools, and 3) the risk of being caught or identified. The Club is very simple to use and installs in seconds. The Club is noiseless protection but sends an extremely loud visual message of security.
