**Missouri Department of Revenue**

**St. Louis City Hall Fee Office**

1200 Market Street Room 111

St. Louis, MO 63103

**Phone:** 314-622-4231

**Hours of Operation:** Monday – Friday 8:00 a.m. to 4:45 p.m.

## THE AUTO CLUB

**Auto thieves can easily see The Club, even before they break out a window or begin prying on your door locks. The device is difficult to remove and makes it harder for thieves to steal your car.**

### **Auto Theft Prevention Checklist:**

- All car doors locked
- All windows rolled up
- All personal belongings have been removed
- Vehicle is parked in a well-lit area
- Vehicle is parked in a highly visible location
- Anti-theft device (club, alarm, kill-switch, etc.) is on

### **Parking**

When parking on the street, find a well-lit area with lots of pedestrian foot traffic (thieves look for isolated, dark areas to break into cars). Do not invite a break-in by leaving valuables such as cameras, CDs, money, computers, or packages in plain sight; either take them with you or discreetly lock them in the trunk. If you do not have a trunk, place them in an out-of-sight location such as under a seat or grocery cover (it's best to do this before you get to your parking spot).

### **Auto Theft Prevention Facts Regarding The Club**

**Question:** What makes The Club better than other products?

**Answer:** The Club's durable construction and tamper-resistant locks deter thieves the moment they see it, so greatly reduces the opportunity to steal the vehicle. Most auto thieves are looking for a quick and easy target to steal.

**Question:** What makes The Club effective?

**Answer:** There are many factors that make The Club a vehicle owner's most effective first line of defense against theft. Primarily, The Club is highly visible. Thieves notice it immediately and the difficulty this presents to them is 1) time, 2) additional hardware and tools, and 3) the risk of being caught or identified. The Club is very simple to use and installs in seconds. The Club is noiseless protection but sends an extremely loud visual message of security.
