FIRST AND SECOND STREETS
Federal Project Number: STP-5401(554)**

**ADDENDUM #2 TO BID DOCUMENTS
Issuance Date: December 18, 2012**

Bid Opening Date: December 21, 2012

Clarification to Drawing C3:

The details on the two typical sections of Drawing C3 indicate that the HTP is installed in and out of the pole base. The rigid steel conduit referenced in Electrical General Note No. 6 runs from base to base. Typically, the transition from rigid steel to HTP is done a short distance from the base. The detail is the City's standard base detail.
