Delivery of this loader will have
a bearing on which loader will
be purchased.

**Bid Spec Sheet
Wheel Loaders**

GENERAL INFORMATION	YES	NO	Comments
The wheel loader must be new, unused current production model with an articulated frame, Z-bar loader linkage front frame.			
It shall have all standard equipment as shown in the manufacturer's printed literature.			
Modifications of existing models to meet these specifications will not be permitted.			

BASIC SPECIFICATIONS	YES	NO	Comments
The advertised operating weight of the base wheel loader, including standard equipment, lubricants, coolant, full fuel tank, bucket, counterweight and operator shall be no less than 52,006 lb (23,590kg). The operating weight shall not include fluid filled or solid rubber tires, optional equipment, or other optional counterweight or ballast.			
Tire size shall be 26.5-R25 XHA2* tires on construction equipment type steel rims at all four corners.			
The SAE rated general purpose Bucket Capacity shall be no less than 5.5 yd ³ cubic yards (4.2 cubic meters) and shall have a bolt on cutting edge.			
Static tipping load with 0 degrees of articulation shall be no less than 42,130 lbs (19,110 kg)			
Static tipping load with 40 degrees of articulation (full turn) shall be no less than 36,300 lbs (16,470 kg).			
Bucket breakout force (with a 4.3 yd ³ bucket) shall be no less than 43,196 lbs (19,599 kg).			
Dump clearance with a stockpiling bucket w cutting edge shall be no less than 10'5" (3185 mm) at full height and the bucket at a 45 degree dump angle.			

ENGINE SPECIFICATIONS	YES	NO	Comments
Engine shall have six cylinders in an inline configuration, a turbocharger with an air-to-air after-cooler.			
Engine shall have a minimum power rating of 272HP when rated according to ISO 9249/ SAE J1349 standards.			
Engine shall be EPA TIER 4 Interim emissions certified and use cooled EGR technology.			
Engine shall be direct injection with electronically controlled common rail injection system.			
Engine displacement shall be at least 674 cubic inches (11.04 L).			
Engine bore shall be 4.92" (125mm) and stroke shall be 5.9" (150 mm).			
Engine air will be filtered by a dry element, two stage radial sealed air cleaner with a dust indicator and evacuator.			
The engine cooling system shall use a hydraulic driven fan that can be reversed for radiator cleaning both manually and via an automatic reverse mode through the use of a single switch during operation. The fan reverse mode and timing will be controlled through the monitor			
The engine shall have a cold weather starting system consisting of an electric intake manifold pre-heater.			

ELECTRICAL SYSTEM	YES	NO	Comments
The engine shall be equipped with a 24 volt starting and charging system with a 50 amp alternator and dual 12V batteries 140 Ah. A battery disconnect switch shall be provided.			
That cab shall have both 24V and 12V power outlets.			
The lighting system shall include two front halogen high/low beam cab mounted headlights with a high beam indicator on the instrument panel, two front halogen work lights, two rear halogen work lights, two rear combination stop and tail lights, rear back up light, two front and two rear turn signals with hazard flasher switch, instrument panel illumination and interior dome light.			

TRANSMISSION	YES	NO	Comments
The loader shall be equipped with a full powershift, auto-shift, countershaft type transmission with 4 speeds in forward and reverse. Kick-down to first gear forward will be accomplished automatically. A maximum travel speed in forward shall be at least 23.6 mph (38 KPH)			
The transmission shall be equipped with 3 element, single stage, single phase torque converter with automatic lock-up torque converter capability.			
Maximum travel speed in forward shall be at least 23 mph (37.3 km)			
A neutral safety circuit shall be provided to prevent engine start when the direction control lever is not in neutral.			
An audible alarm shall indicate when the machine is in reverse travel mode.			

HYDRAULIC SYSTEM

The loader shall employ a closed center load sensing hydraulic system which shall be equipped with an oil cooler.			
All hydraulic flow shall pass through a two (2) or three (3) spool control valve. The first spool shall feed the steering circuit. A second spool will control flow to the loader circuits. The third spool shall provide flow for any attachments such as a multi-purpose bucket. All necessary piping on the loader arm shall be provided for the attachment circuit.			
The hydraulic system shall employ two (2) piston type pumps as well as a pilot control pump.			
Hydraulic cycle time, with the bucket carrying a load not exceeding its maximum, shall be 6.1 seconds to raise, 1.6 seconds to dump, and 3.1 seconds to lower when empty, for a total cycle time of 11.0 seconds.			
The EPC (Electronic Pilot Control) levers console shall be integrated with the seat and move with it.			
The following rated pump flows at 2000 rpm are to be considered minimums, work equipment 68.7 gpm (260.2 l/min) , steering 52 gpm (195 L/MIN)			
STEERING			
The wheel loader shall have a 40 degree full turn articulation steering angle both right and left of center.			
The steering system shall be a full hydraulic type and shall perform consistently and independently of engine speed variations.			
The turning radius at the outside of the bucket at carry position with a bolt on cutting edge shall be no more than 25'1" (7650mm)			

BRAKES

The loader shall be equipped with (4) wheel, hydraulic, inboard mounted ,wet disc type service brakes. The service brakes shall be controlled by two pedals. Both pedals shall be used for braking. A selector switch shall be provided to allow the left pedal to be used to neutralize the transmission.			
The parking brake shall be hydraulically actuated wet disc type and shall neutralize the transmission when applied. The parking brake shall be self adjusting.			

DRIVELINE / FINAL DRIVE

The final drive shall be an inboard planetary type.			
The rear axle shall be semi-floating, supported by a center pin with a total minimum oscillation of 13 degrees. The front axle should be fixed with a semi floating axle shaft.			

OPERATOR COMPARTMENT

The operator compartment shall protect the operator from the environment and feature an integrated ROPS/FOPS level 2. (roll-over protection system / falling object protection system) that meets OSHA requirements.			
The operator compartment shall have full vision safety glass, two inside rearview mirrors and two outside mounted rearview mirrors.			
The operator compartment shall be mounted on multi-layer viscous mounts for comfort and noise suppression.			
The seat shall have a high back rest and be fully adjustable for height, weight, fore/aft, seat back, and armrests, have air suspension, and be equipped with a seat belt. The seat shall be heated.			
The cab shall include a tilt and telescoping steering wheel, ashtray, lighter and sun visor.			
Both front and rear windows shall have wipers and washers. The front window shall have an intermittent wiper. The rear window shall have an integrated heating system for removing ice, frost and fog.			
The floor of the cab shall have a full size, rubber floor mat that shall be flush with the sills of the doors for easy cab cleaning.			
The cab shall have lock-outs for the hydraulic controls that do not allow for boom or bucket operation while engaged.			
The cab shall be a two (2) door walk through design with access ladders and handrails			
The operator compartment shall have a standard climate control system for heating and air conditioning operated by an electronic control panel.			

INSTRUMENTATION

The wheel loader shall have the following gauges: Hour meter, speedometer, tachometer, fuel level, torque converter oil temperature, and engine coolant temperature.			
--	--	--	--

The instrument panel shall include the following indicator lights: central warning ,brake oil pressure, engine oil level and pressure, engine preheat ,air cleaner restriction, steering oil pressure, power mode, radiator water level, directional indicator, auto shift, fuel level, torque converter temperature, axle oil temperature, reverse cooling fan, oil change required, battery electrolyte level, battery charge parking brake, turn signals, high beam, shift hold, gear position, hydraulic temperature, engine water temperature, RPM/MPH display and a full maintenance monitor system that will store and display service intervals and fault codes.			
--	--	--	--

SERVICEABILITY

The hydraulic tank shall have an oil level sight gauge that allows checking the fluid level without removing the filler cap.			
A cartridge-type hydraulic return filter shall be located outside of the hydraulic tank for easy service and to avoid system contamination.			
All daily engine checks will be performed on the right engine side and easily reachable or viewable from one position.			
Rear engine access doors shall lock into two positions for safety and to allow for operators and technicians of varying heights and be hinged at the top for easy engine compartment access. Rear grill and coolers shall swing out for easy cleaning.			

GUARDS AND VANDALISM PROTECTION

An emergency exit door shall be on the right side of the machine to allow operator exit in the event that the machine is tipped over onto the left door, or the left door is otherwise damaged to the point that it cannot be opened.			
An engine cooling fan guard must be installed to protect the operator from the engine cooling fan.			
Vandalism protection should include :cap locks and cover for fuel tank filler, padlocks for the battery box, hydraulic oil tank, engine hood side panels, radiator cap cover, radiator tank and transmission oil filler cover.			

WIRELESS EQUIPMENT MONITORING SYSTEM

The wheel loader shall be equipped with a wireless equipment monitoring system to provide the owner with SMR readings, machine location via a GPS system, operating times, fuel consumption, engine coolant temperature monitoring information, dashboard cautionary information, maintenance reminders, load and frequency data, and the ability to lock out the engine start ability. A used friendly web site with customized access to your machine, e-mail and text alerts plus monthly summary reports			
The wireless monitoring system must provide this information to the owner at no cost for at least five years from the date of purchase.			

SERVICE FILL CAPACITY

The fuel tank shall have a diesel fuel capacity of at least 100. US gallons (380 L).			
The engine cooling system shall have a coolant / antifreeze capacity of at least 21 US gallons (80L).			
The engine crank case shall have an oil capacity of at least 10 gal (38 L).			
Each axle (front and rear) shall have a gear oil capacity of at least 14.8 US gallons (56L).			
The hydraulic system shall have a hydraulic oil capacity of 45.7 US gallons (173L).			
The torque converter and transmission shall have a lubricant capacity of 17.2 US gallons (65L).			

Additional Equipment

1. Two (2) 5 lb. Fire Extinguisher for each unit
Class A B & C
2. First Aid Kits Metal Case for each unit
DOT Approved
3. FILTERS: One complete set of filters for
all systems of this loader including Air Filter.
4. One (1) Wheel

Warranty

- a) A copy of the manufacturer's warranty form shall be delivered with each vehicle.
- b) Bidders to state warranty conditions as they apply to complete unit and to major components. State warranty in time, hours and miles.
- c) The warranty provided will be a very important factor considered in awarding bids.
- d) State location where warranty work is to be performed.
- e) All warranty work to be free of all charges including service call charges.

IN-HOUSE WARRANTY WORK:

- a) The Equipment Services Division at its option may elect to perform some minor warranty work in-house. Parts determined to be warranted are to be provided free of charge. Labor to replace warranted parts to be reimbursed to the City of St. Louis.
- b) When warranty work is performed at the Supplier's location they will pick-up and deliver to the City's facilities at no cost to the City. A copy of the work order indicating work performed and parts replaced is to be furnished to the Equipment Services Division, City of St. Louis, at no cost.

Bidder must list the City of St. Louis metropolitan area factory authorized service and parts representatives who will be responsible for servicing the complete unit or any part thereof.

Delivery Time

All deliveries shall be made between the hours of 8:00 a.m. and 3:00 p.m., Monday through Friday, excluding holidays. City of St. Louis shall be notified 24 hours in advance of delivery.

Penalty for Late Delivery

- There will be a \$100.00 per day penalty for late delivery.
- List the delivery time in days of the equipment. _____.

Service Manuals & Diagnostic software

Please list the cost separately for the service, parts manuals/CD and diagnostic software that is need for this bid. These items must cover at least ten (10) years. So if there is a yearly cost for the subscription list it as a yearly cost. The diagnostic software must cover the complete vehicle (i.e. engine, transmission, chassis, brakes and body if it applies).

ST. LOUIS DOMESTIC PRODUCTS PROCUREMENT ACT

The City of St. Louis has enacted an ordinance relating to the purchase of domestic products by City government, with penalty provisions. The ordinance amends Section 5.58.010 Revised Code of the City of St. Louis, 1986, as amended by adding thereto new subsections dealing with the requirement that the Supply Commissioner or his designee give preference to goods or commodities manufactured in the United States of America, stating exceptions to said policy. Sections one through six are reprinted below.

Section One. Section 5.58.010 Revised Code of the City of St. Louis is hereby amended by adding the following language: Each solicitation to bid and the method of describing the items to be bid upon of any goods or commodities sought to be purchased by the Office of Supply Commissioner, and any contract entered into by and on behalf of the City of St. Louis and executed by the Mayor and/or the Comptroller of the City of St. Louis wherein the construction, alteration, repair or maintenance of any public works is the subject of the contract so executed, shall contain a provision that the goods or commodities furnished or used in the furtherance of said project by any contractor or subcontractor, manufacturer or supplier as the case may be, shall be manufactured, assembled or produced in the United States, and said requirement as defined above shall be stated in said bid.

Section Two. The provision of Section One of this Ordinance shall not apply in the following instances:

- (i) Where the item purchased as the contract entered into for repairs or renovation is less than One Thousand (\$1,000.00) Dollars.
- (ii) Where no line of a particular good or product is manufactured, assembled or produced in the United States.
- (iii) Where the acquisition of United States manufactured or produced goods would increase the cost by more than (10%) percent.

Section Three. The certificate required by this section shall specify the nature of the contract, the product being purchased or leased, the names and addresses of the United States manufacturers and producers contracted by the Commissioner or the project architect or engineer, and an indication that such manufacturers or producers could not supply sufficient quantities or that the price of the products would increase the cost of the contract by more than ten percent.

Section Four. No public agency may authorize, provide for, or make any payment to any vendor or contractor upon any contract in violation of section 2 of this act. Prior to the awarding of the bid and before any public agency authorizes, provides, or makes payment to any vendor or contractor upon any contract to which section 2 or 6 of this act applies, the vendor or contractor shall provide proof of compliance with section 2, and, if applicable, section 6 of this act. Any vendor or contractor who knowingly misrepresents any material fact to the public agency concerning the origin of any manufactured goods or commodities shall be guilty of a Class A misdemeanor.

Section Five. Sections 1 to 6 of this act shall apply only to contracts and subcontracts entered into after the effective date of this act, and shall not limit the use or supply of manufactured goods or commodities purchased or leased prior to the effective date of this act.

Section Six. Nothing in sections 1 or 6 of this act is intended to contravene any existing treaty, law, agreement, or regulation of the United States. All contracts under section 1 or 6 of this act shall be entered into in accordance with existing treaty, law, agreement, or regulation of the United States including all treaties entered into between foreign countries and the United States regarding export-import restrictions and international trade and shall not be in violation of sections 1 to 6 of this act to the extent of such accordance.

Interpretations and Guidelines

Section One: "Shall be manufactured" is interpreted to mean to make or process a raw material into a finished product or to turn-out in a mechanical manner. "Assembled" is interpreted to mean to fit or to join together the parts, gather, or to congregate in a manufacturing environment. "Produced" is interpreted to mean to create by manual or physical effort, to make or yield to customary product or products.

Section Two (i) This is interpreted to mean less than one thousand dollars in aggregate (total purchases).

(iii) When applying this subsection, multiply the cost of the foreign product by ten percent and compare the cost to the American product. If the American product cost is less than the sum of the cost of the foreign product plus ten percent, the award will be made to the vendor bidding the American product. The price paid by the City of St. Louis will be the actual price bid by the winning bidder.

Section Three: "Could not supply sufficient quantities" is interpreted to mean in order to meet the using agency's delivery schedule and in quantity specified.

Section Four: The vendor's authorized representative must complete a self-certification form, as required by the existing procedures previously indicated. These certification forms will be used to determine whether the manufacturer or producers could, or could not supply sufficient quantities, or the cost of the products would increase the contract by more than ten percent.

Prior to the City awarding the bid, the vendor shall provide certification that the product being bid is manufactured, assembled or produced in the United States or there is an existing treaty, law or regulation whereby the product bid shall be treated the same as product manufactured, assembled or produced in the United States. The procuring agency shall accept the self certification in order to apply the percentage differential that is applicable under this law. Failure to provide certification shall cause the city to presume that such product is not American made and preference shall not be considered for that product.

CERTIFICATION FORM ST. LOUIS DOMESTIC PRODUCTS PROCUREMENT ACT (BUY AMERICAN)

Bidders are advised of legislation enacted by the City of St. Louis which requires all manufactured goods or commodities used or supplied in the performance of this contract or any subcontract to be manufactured, assembled or produced in the United States, unless obtaining American made products would increase the cost of this contract by more than ten percent.

Section Four requires the vendor or contractor to certify his compliance with this legislation and if applicable, Section Six, if preference is claimed.

This legislation does not apply if the total bid is less than one thousand dollars (\$1,000.00).

Bids received will be evaluated on the basis of this legislation. Certificates of compliance must be completed and returned to be considered for preference. Failure to provide certification shall cause the City to presume that such product is not American made.

CERTIFICATION
If **all** the specified goods or products are manufactured, assembled or produced in the United States, check box at left and complete certification at the bottom of this form.

SECTION SIX CERTIFICATION
If any or all of the specified goods or products are manufactured, assembled or produced in a country other than the "United States", and exemption is requested because such product is Fair Trade Product: (a) list the country, other than the United States, where each good or product you propose to furnish is manufactured, assembled or produced; (b) check box at left of this paragraph and list corresponding commodities and (c) complete Section Six Documentation portion below.

Item Number(s)	Location Where Item Manufactured, Assembled or Produced

SECTION SIX DOCUMENTATION
The specified goods or products are treated as manufactured, assembled or produced in the United States under an existing treaty, law, agreement or regulation of the United States regarding export-import restrictions and international trade. List item Number(s) and Treaties covering item below.

DEFINITIONS

- MANUFACTURED** - to make or process a raw material into a finished product; create, or to produce or to turn-out in a mechanical manner.
- ASSEMBLED** - to fit or join together the parts in a manufacturing environment.
- PRODUCED** - create by manual or physical effort, to make or yield the customary product or products.

MUST BE COMPLETED AND SIGNED

I hereby certify that the above information is true and correct and further certify that this statement complies with all provisions of Section 5.58.010 Revised Code of the City of St. Louis, 1985, as amended.

(SIGNATURE and TITLE)

**CITY OF ST. LOUIS/SUPPLY DIVISION
MINORITY/WOMEN BUSINESS ENTERPRISES FORM
(M/WBE FORM)**

A. Mayor's Executive Order #28, Section Six - Supply Contracts

1. The goal of the City of St. Louis is that 25% of the value of all contracts let and purchases made by the Supply Commissioner shall be let or made with Minority Business Enterprises (MBEs) and that 5% of the value of all contracts let and purchases made by the Supply Commissioner shall be let or made with Women's Business Enterprises (WBEs).
2. All contracts let by the Supply Division for the purchase or lease of materials, equipment, supplies, commodities or services, the estimated cost of which exceeds \$500, shall be subject to this goal.
3. The methods by which the Supply Commissioner shall pursue this goal shall include but not be limited to the following:
 - a. The Supply Commissioner shall solicit bids from minority business enterprises and women's business enterprises certified to supply the required materials, equipment, supplies or services;
 - b. St. Louis Airport Authority (SLAA) shall provide the Supply Commissioner with a list of minority business enterprises and women's business enterprises qualified to provide each of those commodities that the Supply Commissioner indicates are required by the City;
 - c. The Supply Commissioner shall notify SLAA prior to solicitation of bids whenever no such qualified businesses are available;
 - d. SLAA shall attempt to identify such qualified businesses, and if successful, shall notify the Supply Commissioner of their availability; and
 - e. The Supply Commissioner shall provide such minority business enterprises and women's business enterprises every practical opportunity to submit bids.
4. Joint ventures or mentor-protégé relationships between prime contractors and subcontractors with local MBE and WBE firms are encouraged.
5. Participation of MBE and WBE firms located outside the St. Louis Metropolitan Statistical Area (SMSA) shall not count toward the goals established in this order.

B. SUPPLY DIVISION POLICY

It is the policy of the Supply Division that all bids/contracts awarded adhere to the Mayor's Executive Order #28. All vendors are encouraged to comply with this policy and all other provisions of Executive Order #28. A copy of Executive Order #28 is available upon request. Each Vendor/Contractor (bidder) must complete, sign and return this M/WBE Form. Failure to complete, sign and return the M/WBE Form will result in the bid being declared non responsive and your bid may be eliminated.

C. OBLIGATION

The bidder agrees to make a good faith effort to ensure that M/WBE businesses have an opportunity to participate in the performance of contracts or subcontracts financed in whole or in part with City funds. The bidder will take all necessary and reasonable steps to ensure that said businesses have an opportunity to compete for and perform under this bid/contract. The bidder shall not discriminate on the basis of race, color, national origin or sex in the award and performance of bids/contracts. The Directory of Disadvantaged, Minority and Women Owned Business Enterprises certified by the City of St. Louis, can be viewed at www.mwdbbe.org.

ORDINANCE #69431
Board Bill No. 295
Committee Substitute
As Amended

An Ordinance repealing Section One, part 86.040 of Ordinance 56716, pertaining to the opening of bids, codified as Section 5.58.040 of the Revised Code of the City of St. Louis, and enacting a new provision on the same subject matter which allows a local bidder to match the lowest bid when the lowest bid is from a non-local bidder; enacting a new provision on the same subject matter; containing severability clause.

WHEREAS, local businesses which seek to enter into contracts with the City of St. Louis are at a competitive disadvantage with businesses from other areas because of the higher administrative costs of doing business in the City;

WHEREAS, the City of St. Louis desires to encourage businesses to remain in the City and to relocate to the City;

WHEREAS, by enacting a local preference law that allows a local firm to match the lowest bid when its bid is within 2% percent of the lowest bid, the City hopes to encourage and stimulate local business.

BE IT ORDAINED BY THE CITY OF ST. LOUIS AS FOLLOWS:

SECTION ONE. Section One, part 86.040, Ordinance 56716 is hereby repealed.

SECTION TWO. Enacted in lieu thereof is the following new section.

5.58.040 - Opening of bids.

A. Proposals shall be opened at the time and place fixed by the advertisement, in the presence of such bidders as desire to be present, and shall be open to the inspection of bidders.

B. The bids shall not be materially modified or amended as to price, specification or otherwise, nor substitutions placed thereon, after opening except when the lowest bid is from a non-local bidder. When the lowest bid is from a non-local bidder, any local bidder within two percent of the lowest bid may match the lowest bid. If a local bidder matches the lowest bid, then the Supply Commissioner may select the bid from the local bidder. If more than one local bidder is within two percent of the lowest bid, then only the lowest local bidder may match the bid. In all other circumstances, modification, supplementation or amendment shall cause rejection of the bid. For purposes of this chapter, local bidder means a bidder whose principal place of business is within the City of St. Louis, has had a valid business license for at least one year, and is current in payment of local taxes. Principal place of business shall be defined as the business's physical office, plant, or site where a majority (51%) of the full-time employees, chief officer, and managers of the business regularly work and conduct business, or where the plant or office and equipment required for the furnishing of the goods or performance of the services provided to the City, as required by the contract, are physically located in the City of St. Louis for at least one taxable year immediately prior to the date of the bid.

C. Bids may be for one or more or all the articles advertised for, but there shall be a specific bid on each article. The award may be made to the lowest bidder for any article, or to the lowest bidder for the entire requisition or any part thereof, but the Board of Standardization may reject any or all bids or any part of any bid.

SECTION THREE. Severability.

The provisions of this section are severable. If any provision of this ordinance is declared invalid, that invalidity shall not affect other provisions of the ordinance which can be given effect without the invalid provision.

Approved: April 29, 2013

CITY OF ST LOUIS, MISSOURI
INSTRUCTION TO BIDDERS (for request for quotations - RFQs)

VENDORS SHOULD CAREFULLY READ THE FOLLOWING INSTRUCTIONS AND TERMS AND CONDITIONS, BEFORE SUBMITTING QUOTATION. **CAUTION: THIS IS NOT AN ORDER**

- Quotations will only be accepted on this form which must be returned in a **sealed envelope**. The upper left corner of the envelope must include the following information: Vendor Name, Quotation Number and the Due By Date. This information is also required on any mail delivered next day or overnight.
- Quotations should be typewritten or in ink. Altered or erased unit price(s) must be initialed. One copy of Quotation Sheet must be submitted, please retain a copy for your files.
- The Supply Commissioner reserves the right to reject any or all bids.
- The Supply Commissioner reserves the right to make awards on an item basis or on a total basis.
- Bidders must quote Unit Price(s) and Extension on each item. When an error appears on an extension, the Unit Price(s) will govern.
- When Quotation Sheet requests item(s) by brand name and your quote is for an alternate brand – show brand name(s) with model number(s) and attach full specifications.
- When Quotation Sheet has only a general description(s) of item(s) required – show brand name with model number(s) and attach full specifications.
- Suppliers shall not offer more than one bid on each item. Two or more quotations on the same item may cause a rejection of the bid. Suppliers must determine which one of their many styles or types fully meet the specification.
- Freight or delivery charges must be included in quote, or shown separately on quote, so bid can be evaluated.
- **Bids must arrive no later than NOON** on the date stated or will be rejected. Faxed or E-mailed bids are not accepted unless specifically requested.
- Bids will be publicly opened on the date specified beginning at NOON.
- Prices quoted will be considered firm.
- Bids having an acceptance limit of less than 30 days after opening date may be rejected.
- Time of proposed delivery must be stated in definite terms.
- Failure of Bidder to understand the item(s) requested or any part of the specifications will not be a valid reason for bidding on the wrong item(s). Any questions regarding description of item(s) requested should be cleared with the Buyer listed in the bid document.
- **Samples** when requested must be delivered before actual time of bid opening with each sample plainly tagged showing the name of Bidder, Quotation Number, Brand Name and lot number or quality. Submission of samples does not relieve bidder from meeting the specifications as outlined in the Bid Documents unless the bidder specifically states they are bidding on an alternate.
- All samples are to be submitted to the address listed below unless otherwise stated in Bid Documents.
- Deliveries must be accompanied by a packing slip or invoice, listing the Department, Quotation Number, and the exact quantities of each item included in the shipment.
- ONLY U.S.P., N.F., OR N.N.D. DRUGS ARE ACCEPTABLE. ALL DRUGS MUST COME IN MANUFACTURER'S ORIGINAL PACKAGES, PROPERLY SEALED.
- In the event the successful bidder fails to make delivery of any item or items that meet the conditions and requirements as outlined in this proposal within 7 days of time stated by bidder on face of this quotation sheet, the City reserves the right to purchase said item or items on the "OPEN MARKET" and charge any costs above the BID PRICE to the bidder.
- The laws of the State of Missouri provide that the City of St. Louis pay no State Sales or Use Tax or Federal Excise Taxes and these taxes should be excluded from your bid price. Federal Excise Tax Exemption Certificates will be furnished to successful bidder.
- Suppliers shall save harmless the City of St. Louis from the payment of any and all claims or demands arising out of any infringement, alleged infringement, or use of any patent or patented device, article, system, arrangement, material or process used by him in the execution of this contract.
- Supply Division hours are Monday through Friday – 8:00 A.M. to 5:00 P.M. Main Number: 314-622-4580.

All bids must be submitted in a SEALED ENVELOPE and mailed to:

SUPPLY COMMISSIONER
1200 MARKET ST RM 324
ST LOUIS MO 63103-2842
