NOTES:

A. Electrical Outlets - Each and every point on the electrical system where power or light is derived for any purpose whatsoever. In computing for signs, each 500 watts of load or fraction thereof shall be considered an electrical outlet. In computing outlets for fluorescent fixtures, each fixture shall be counted as an electrical outlet.

B. Service Equipment - Each and every point on the electrical system where power is derived from the public utility system or a private generating plant.

C. Panel Boards and Switchboard Sections - Each and every point on the electrical system where switches or protective devices are mounted on individual panel or single framework.

D. Transformers - Each and every point on the electrical system where the primary voltage is either increased or decreased.

E. X-Rays - Each and every point on the electrical system where an individual x-ray device or machine is served.

F. Carnivals - A fee of \$10.00 shall be charged for the inspection of a carnival and circus wiring and electrical equipment. When theatrical or carnival companies change location, an inspection shall be required of each new location.

G. Reinspections - Disconnected Service - A fee of \$20.00 shall be charged for reinspection of buildings on which service wires have been removed, or, in commercial installations, where a change in tenancy has taken place, or in residential installations, which have not been in use for a period of six (6) months. It shall be unlawful to use, or permit the use of, or to supply electric current for heating, lighting or power in any structure or on any premise until the required reinspection has been made and a Certificate of Approval issued by the Building Commissioner. Should required inspection not be applied for and the Certificate of Approval not issued, the Building Commissioner shall order the Electric Power Company, who, upon receiving notice from the Building Commissioner shall immediately disconnect the electric service or current to such building, structure or premises and no electric service or current shall be furnished until so ordered by the Building Commissioner.

H. Reinspections-Old Installations - For inspection of old installations of electrical work made upon request of the owner, and issuance of certificates thereon, a fee of \$20.00 shall be charged and payable prior to the inspection.

I. Inspections - Rewiring - Inspection of rewiring, rehabilitation, additions and alterations to existing electrical wiring and equipment installation to Residential R-2 and R-3 Use Group, where no new electrical service is to be installed, shall be made for a fee of \$20.00 for the initial residential (housing) unit and \$10.00 for each additional residential (housing) unit in the same site. Where new electrical service is to be installed in buildings designated and described above, and as part of rewiring, rehabilitation, additions and alterations to electrical systems and equipment installation, the inspection fee shall be \$30.00 for the first unit and \$20.00 for each additional residential (housing) unit in the same building on the same site.

J. Inspections-New Construction - Inspection of new construction in Residential R-2 and R-3 Use Group, which would include new electrical service shall be made for a fee of \$60.00 for the first residential (housing) unit, and \$50.00 for each additional residential (housing) unit in the same building on the same site.

SECTION THREE. Emergency Clause. This being an ordinance for the preservation of public peace, health and safety, it is hereby declared to be an

emergency measure within the meaning of Sections 19 and 20 of Article IV of the Charter of the City of St. Louis and therefore this ordinance shall become effective immediately upon its passage and approval by the Mayor.
