SUMMARY BOARD BILL NUMBER 140 FL

INTRODUCED BY ALDERWOMAN CHRISTINE INGRASSIA, ALDERMAN JACK COATAR, ALDERWOMAN PAMELA BOYD, ALDERWOMAN CAROL HOWARD, ALDERWOMAN MEGAN GREEN, ALDERMAN LARRY ARNOWITZ

REVISIONS TO TITLE 10 - ANIMALS

OVERALL PURPOSE/REASON FOR BILL; WHAT BILL WILL DO; MAIN PROVISIONS & IMPACT FOR COMMUNITY

1. Extreme heat/cold; Food, Water & Shelter.
This bill addresses concerns raised by several alderpersons and the public who requested that the code regarding outdoor conditions for animals outdoors be reviewed and updated to provide for tighter regulations during periods of extreme weather. Meetings with concerned citizens and alderpersons resulted in recommendations to add language that would establish temperatures at which time pet owners would be required to provide appropriate additional protection for animals. It is proposed that at any time the temperature is less than 32 degrees Fahrenheit or above 93 degrees Fahrenheit pet owners would be prohibited from leaving dogs or domesticated cats out of doors. In addition, leaving dogs and cats outdoors for longer than 30 minutes without adequate food, water, and shelter would be prohibited.
2. An opportunity for the City to allow an innovative dog park and restaurant bar has encouraged the Department of Health to request the ability to allow variances to regulations established by the Board of Aldermen regarding private dog parks. Permitting of private dog parks is contingent upon the sponsors of the dog park meeting certain requirements to protect human health and safety, the environment, and the safety and health of pets. Allowing the dog park sponsors to propose alternate options to the regulations would be assessed by the Department of Health and variances would be allowed based on thorough assessment that these variances would not negatively impact human health and safety, the environment, and the safety and health of pets. Such variances are allowed in other code requirements, such as the code for recreational water facilities.
3. The practice of declawing cats has been viewed as a cruel and inhumane treatment by the American Veterinary Medical Association. Other municipalities, such as Denver, Colorado, have enacted regulations prohibiting this practice except in extreme circumstances. Animal Care and Control is aware that most veterinary practices in our region do not recommend this treatment for domesticated cats. The proposed regulation would prohibit the practice except in limited medical necessity circumstances.
4. By adding a definition of “domesticated cat”, this legislation would clarify the responsibilities owners/guardians have toward their domesticated cats, rather than toward feral cats.
5. The requirements for dangerous dog signs to be posted at residences where such dogs reside that were adopted in Ordinance 70889 required two-inch letters, which would have resulted in impractical, excessively large signage. The proposed regulation would reduce the size of the letters to one inch high.
